► Summary

Junior full stack web developer with a background in music and education. Driven by curiosity and the desire to take on new challenges. Interested in creating seamless user experiences and finding new ways of applying technology to creative domains.

► Employment

Perficient

Intern Consulting

Sept. 2018 to Current · Toronto, ON

Worked as front-end developer on agile team building enterprise ecommerce website. Contributed to both the project's support stream, maintaining the existing codebase and the development stream, adding enhancements/features. Tech stack/tools: Java, DB2, Javascript, jQuery, Sass, Git, Jira & IBM Websphere Commerce.

Soular Productions

Keyboardist

Feb. 2012 to Current · Toronto, ON

Performed on piano, organ and synthesizer with 9-piece R&B band. Transcribed audio recordings and created arrangements using Sibelius notation software. Clients included the Toronto Blue Jays (Jays Care Foundation Curve Ball), PricewaterhouseCoopers and The Children's Aid Foundation of Canada.

Montcrest School

Piano Instructor

Sept. 2013 to June 2018 · Toronto, ON

Taught music lessons to students aged 5-13 focusing on pop and jazz styles. Developed curriculum covering topics including performance, theory and ear training. Coached students at annual recitals.

► Projects

Kiro · NodeJS | React | Websockets | Postgres | Sass | Google Maps & Yelp APIs

Real estate app that leverages Yelp and Google APIs to provide users with information about nearby amenities and connects users through a real-time chat feature >

FoodBar · NodeJS | Express | EJS | jQuery | Postgres | Twilio API

Food ordering service that automates SMS communication between client and vendor. Twilio API is used to notify the business when an order has been placed and a confirmation message is auto-generated once the business specifies a prep time >

Battleship · NodeJS | Express | jQuery

Single-page implementation of the classic board game. Users can compete against a computer opponent for naval dominance >

TinyApp · NodeJS | Express | EJS

RESTful app modeled loosely on bitly that allows users to generate shortened urls and track traffic through their links >

BarChart · Javascript | jQuery

Simple script for rendering HTML bar charts. Supports both stacked and unstacked bars as well as additional options for customizing bar colors, labels and legends >

KeysWorkshop · Python | Django | jQuery

Repository of sheet music and lessons to help students learn piano. Randomized theory exercises supplement the lessons and include tests on note and interval identification. Also includes a dictionary of common scales/modes and visually maps them to a virtual keyboard.
