► Summary

Junior full stack web developer with experience in e-commerce and data-driven enterprise application development. Motivated by curiosity and the desire to take on new challenges. Focused on creating seamless user experiences and delivering clean, performant code.

► Employment

Insured Connect

Front End Developer

Mar. 2019 to Current · Toronto, ON

Implemented CMS platform built on REST services for insurance carrier/distributor promotional content. Front end feature lead on hierarchy tool project, built to help insurance companies manage their org structures and facilitate app onboarding. Enhanced websocket-based chat/notifications code-base using NgRx/flux to centralize app state. Tech stack: Angular 7-9, Typescript, NgRx, Sass, Elasticsearch, YouTrack, AWS, Kubernetes.

Perficient

Intern Consulting

Sept. 2018 to Feb. 2019 · Toronto, ON

Front-end developer on agile team building enterprise e-commerce project. Contributed to both support and development streams, addressing code-maintenance/support tickets and adding enhancements/features. Tech stack: Java, DB2, Javascript, jQuery, Sass, Git, Jira, IBM Websphere Commerce.

Montcrest School

Piano Instructor

Sept. 2013 to June 2018 · Toronto, ON

Taught music lessons to students aged 5-13. Created lesson plans covering topics including jazz/pop performance, theory and ear training. Coached students at annual recitals.

Soular Productions

Keyboardist

Feb. 2012 to Aug. 2019 · Toronto, ON

Performed on piano, organ and synthesizer with 9-piece R&B band. Transcribed audio recordings and created arrangements using Sibelius notation software. Clients included the Toronto Blue Jays (Jays Care Foundation Curve Ball), PricewaterhouseCoopers and The Children's Aid Foundation of Canada.

► Projects

Kiro · NodeJS | React | Postgres | Sass | Google Maps & Yelp APIs July 2018

Real estate app that leverages Yelp and Google APIs to provide users with information about nearby amenities and connects users through a real-time chat feature >

FoodBar · NodeJS | Express | EJS | jQuery | Postgres | Twilio API July 2018

Food ordering service that automates SMS communication between client and vendor. Twilio API is used to notify the business when an order has been placed and a confirmation message is auto-generated once the business specifies a prep time >

Battleship · NodeJS | Express | jQuery July 2018

Single-page implementation of the classic board game. Users can compete against a computer opponent for naval dominance >

KeysWorkshop · Python | Django | jQuery Feb. 2018

Collection of tools to help music students learn theory fundamentals. Randomized exercises test students on note and interval identification. Includes a dictionary of common scales/modes and visually maps them to a virtual keyboard.
